

New Statewide Term Contract

Medical Products Distribution – 4213A

Effective Dates: May 19, 2023 – May 18, 2024

The Division of Purchase & Contract has established a new statewide term contract to provide medical products distribution.

This is a mandatory statewide term contract for state agencies, departments, institutions, universities, and community colleges, unless exempted by North Carolina general statute. Non-mandatory entities, including schools and local government, may use this contract if allowed by general statute.

This contract replaces statewide term contract 475A.

New Contract Highlights

This contract is intended to cover the state's normal requirements for medical products from awarded vendors through the MMCAP Infuse cooperative purchasing agreement. Awarded vendors distribute medical products, supplies, services, equipment, and other non-pharmacy products. For complete contract details and vendor contact information, see the [MMCAP Infuse website](#)

Each vendor has a dedicated account manager to ensure agencies receive the established contract pricing regardless of the means in which the items or services are ordered (i.e., eProcurement, procurement card, email, phone call, or fax).
