

# Notice of Intent to Establish a Home School

North Carolina law defines a home school as a non-public school consisting of the children of not more than two families or households, where the parents or legal guardians or members of either household determine the scope and sequence of the academic instruction, provide academic instruction, and determine additional sources of academic instruction. [General Statute 115C-563\(a\)](#).

## Division of Non-Public Education (DNPE)

- Provide academic instruction to students on a regular schedule for at least 9 calendar months of the year (with the allowance of reasonable vacations and holidays) (G.S. 115C-548) (A school year runs from July 1 to June 30; i.e. July 2017 – June 2018 comprises the 17-18 school year. The school may operate ‘year round’ or with a summer break, but the academic year designation remains the same.)

### Who should register a home school with a Notice of Intent:

- Parents with children between the ages of 7 and 16 MUST register a home school and provide academic instruction.
- Parents whose only child is 17 should register a home school to provide a means of verification for their school to outside agencies and so the student may obtain a Driver’s permit.
- Parents whose child is 6 at the beginning of the school year (August) and will turn 7 before the end of the school year (May) may register a home school at the beginning of the school year or any time before the child’s birthday. This student will be tested by the end of that school year.
- Parents whose child is 5 in August will not register a home school because their student is not compulsory school age. These parents may legally teach their child at home without registration.
